

Burn-Out Bot

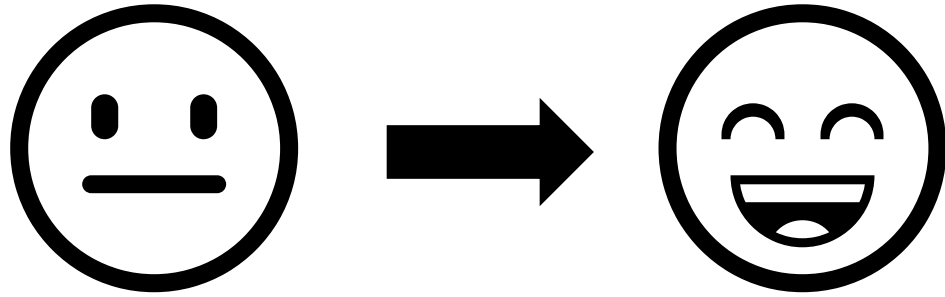

Ty Pavia & Saran Lenzian

ART 4201: New Media Robotics – Fall 2022

Final Project Idea Presentation

Robot face reacts when it "sees" a person
come near

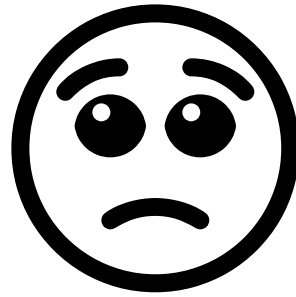

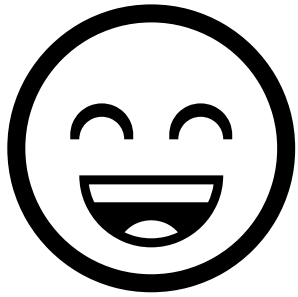

As one continues to move the pedals,

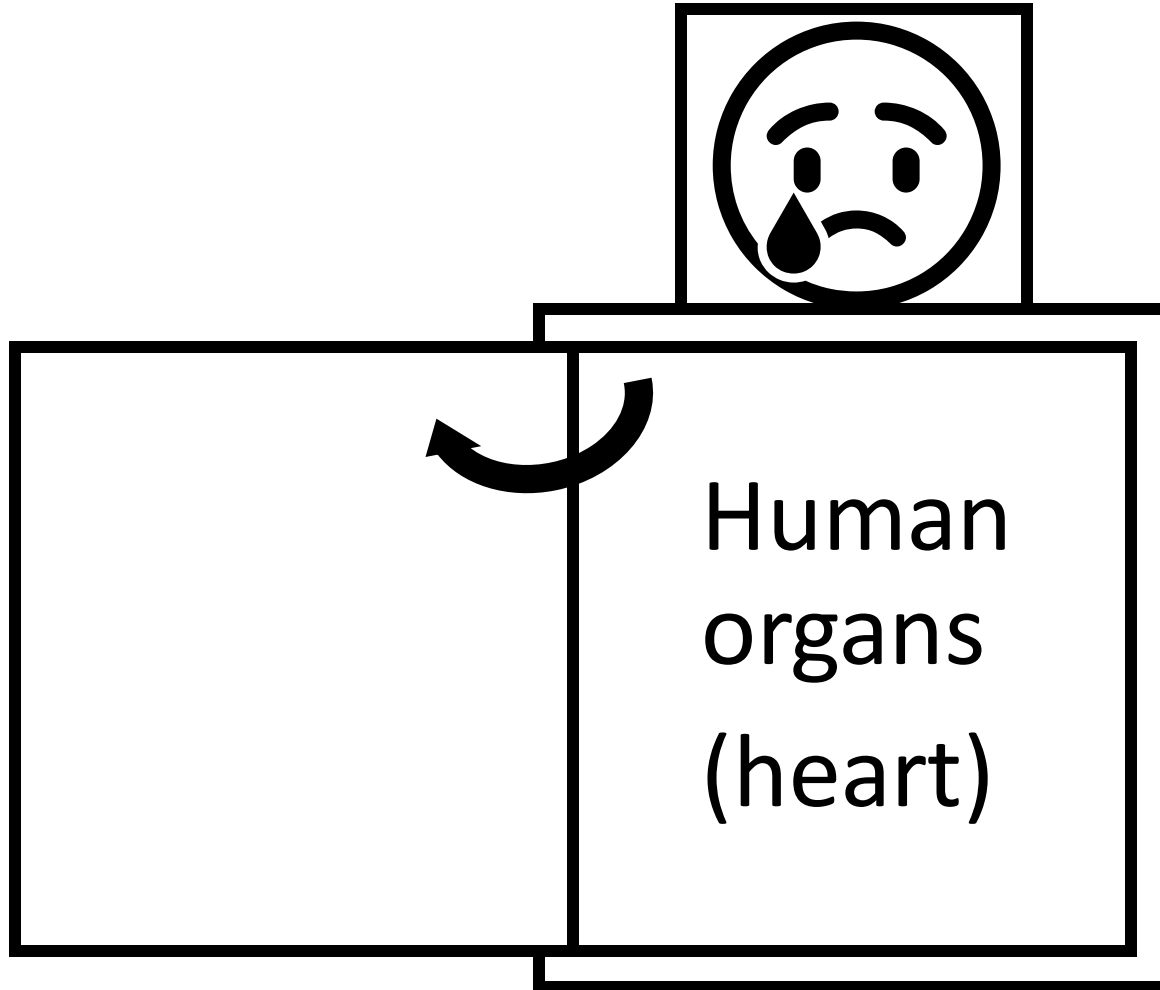

- Points go up 
- Positive reinforcement from the speaker
 - Either words or positive feedback sounds

As one continues to move the pedals,

Robot Face:

As one continues to move the pedals,
Torso casing swings open -- underneath any mechanical
facade we are forced into, we are still human.

As one continues to move the pedals,
Soon, the door closes again, and the process continues
